GORGAS ODONTOLOGICAL HONORARY SOCIETY

The Gorgas Odontological Society was organized in 1915 as a student organization and later it was changed to an honorary dental student society with scholarship as a basis for admission. The Society is named after Dr. Ferdinand J. Gorgas, a pioneer in dental education and a great contributor to dental literature, and it was with the idea of perpetuating his name that the society adopted it.

The Society makes for its objective the furtherance of dental knowledge by discussion and lectures. Gorgas is comprised of Junior and Senior members whose scholastic endeavors have placed them in at least the top third of their class.

GAMMA PI DELTA

Gamma Pi Delta was chartered in 1965 as an honorary student dental organization with scholarship and interest in the field of Prosthetic Dentistry as a basis for admission. The prestigious honor society requires maintenance of at least a "B" average in the disciplines of both fixed and removable prosthodontics for all four years of dental school.

This year's activities included revision of the society's constitution and several dinner meetings in some of Baltimore's finest restaurants. Special guest speakers provided a variety of entertainment in an effort to stimulate creativity in prosthodontics and general dentistry.

STUDENT AMERICAN DENTAL HYGIENISTS ASSOCIATION

SADHA is the dental hygiene students' professional organization. As members of this organization we hope to gain an understanding our our profession and our role in the communities we will serve. Our goal this year was to become recognized in the Dental School, as well as on the UMAB campus. To reach this goal we became involved in different activities, such as revising our Constitution and Bylaws, forming a dental hygiene liaison program with dental students, and participating in the USGA. SADHA is also involved with community/public health activities, fundraising, spring banquet plans and professional growth.

Student participation in SADHA insures that the University of Maryland Dental Hygiene program graduates will be active and vital participants of the dental health care team and their local American Dental Hygienists Association.

MESSAGES FROM . . .

THE EDITOR-IN-CHIEF

The past four years have been very rewarding for me. The experiences I have been through are unforgettable. The 1985 MIRROR has been an attempt to reflect those experiences we have all encountered. Dentistry has changed enormously during the past four years. But, we do live in "Changing Times." I can only hope this yearbook will preserve fond memories for everyone.

Countless hours have been spent putting this year's MIRROR together. The person who has made it all worthwhile is my wife, Barbara. She has supported me 100% in my efforts to make this yearbook a success.

I would like to dedicate The 1985 MIRROR to my wife, Barbara, and my newborn daughter, Julie Rebecca.

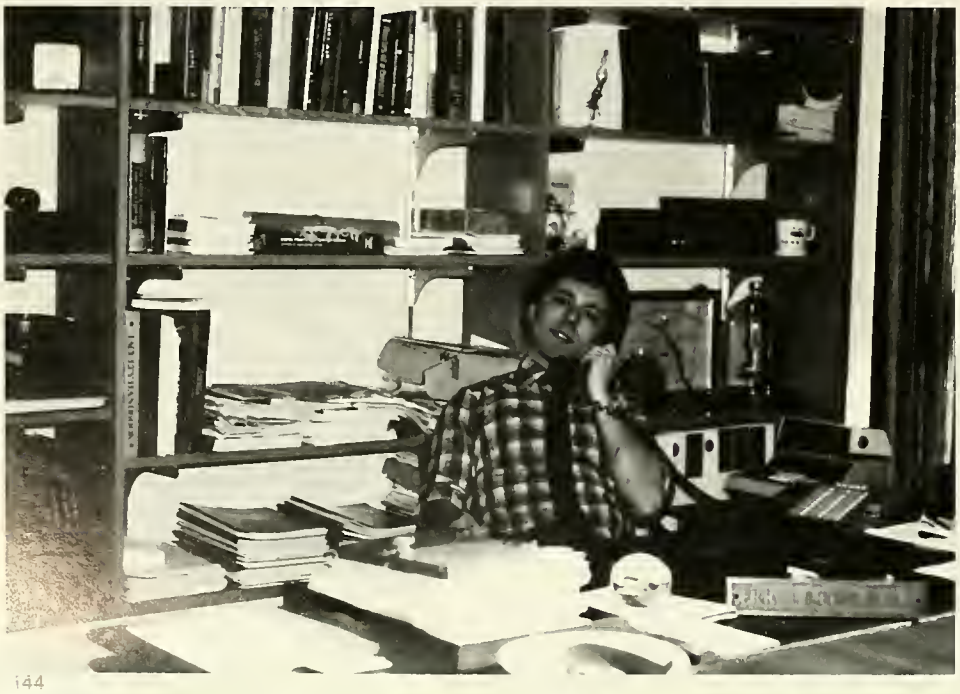
Paul G. Collins

SENIOR EDITOR

The purpose of this year's MIRROR is to accurately reflect upon the activities and events of this year at BCDS. In addition, this book should serve as a record of the time we spent here so that those of us who are graduating may have something to turn to in years to come. In this light, we have included as many candid pictures as possible, along with an attempt to "personalize" the yearbook with respect to seniors. I want to thank all of the countless people who helped here and there, without whom this book could not have been a success.

I would like to dedicate the 1985 MIRROR to my lover, Mrs. Paul Collins, and my newborn daughter, Julie Rebecca.

Douglas Wooddell



SDA PRESIDENT

The quality of one's education is not only dependent upon the instruction and knowledge one receives, but also upon the environment in which the assimilation of this knowledge takes place.

Here at BCDS the Student Dental Association's main goal is to help improve the quality of student life. This is not an easy task, as apathy tends to run rampant throughout most professional schools. The SDA, through the sincere efforts of a few dedicated individuals has tried to fulfill this goal. My heart and thanks go out to those individuals who have tried to make our stay at BCDS a little bit nicer.

Investing in the Future.

...Patterson's history of progress

Patterson Dental Company grew from a proud heritage begun in 1877, when young M. F. Patterson opened a dental supply counter in his Milwaukee drug store. Soon thereafter, he relocated the company to the growing Minneapolis area, where it is headquartered today.

Patterson's history is characterized by progressive company growth. By the 1960's the company had expanded to 36 branches located primarily in the Midwest, Southeast and West. Since then, Patterson has continued to grow and today employs more than 1500 people in over 90 locations...creating a national distribution network united by advanced computer technology.

...growth for tomorrow

Patterson Dental Company is committed to the future of dentistry... we're planning now for the dentistry of tomorrow.

Toward that goal, we've invested in management technology and human resources: a national computer network, inventory and management systems, office planning and design, technical repair service, recruitment and training, and professional education programs for dentists and staff. Additionally, Patterson has created a centralized institutional bidding department to handle the specialized needs of dental facilities in Veterans' Administration hospitals, military bases, dental schools, and government clinics.

We strive to stay at the forefront of the dental industry, meeting the complex needs of tomorrow with innovations that begin today.
